June 8, 2023

Dear Prospective Members,

We would like to cordially invite you to become a member of the San Diego Advanced Study Group. We are the local affiliate of the highly regarded Seattle Study Club, a leader in the field of dental continuing education. The focus of our group is **Comprehensive Patient Case Management, strive beyond status quo along with Patient and Team Engagement!**

We finished up an educational and fun packed 2022-2023 academic year on June 9th, 2023 at a local favorite "Speakeasy." We added 3 additional evening CME opportunities this past academic year and many of you took advantage of the added opportunity! We also asked for your input via "Survey Monkey" to assist us with planning a curriculum that would better meet our members needs. Thank you to everyone who participated! Armed with this information, we have put together a 2023-2024 academic year filled with interesting topics to help you stay in the forefront of Dentistry and personal Wellness.

Some of many memorable experiences of the 2022-2023 academic year include Ugly Sweater December, Bubbly January, and the hands-on All-on-4 workshop sponsored by Dentsply-Sirona in April. Regrettably, we did not make it to the 2023 Symposium in Orlando but we plan to attend the 2024 Symposium in Santa Barbara. We highly recommend you come along for the multiple CME opportunities along with an exceptional Seattle Study Club Symposium experience!

One of the things that continues to make this club so successful is our amazing group of Dental Professionals. This year, we added several new members and would love to continue to increase our membership with your help! I can humbly say I am proud to be an affiliate of this group. The quest for optimal and innovative patient care never STOPS! This group is testament to this believe. Our members, advisors and mentors enthusiastically share cases, ideas, and techniques so we may become better clinicians while growing a successful Dental Practice in the 21st Century. SDASG provides an opportunity for you to work with other general practitioners and specialists to pool your vast knowledge and experience together in a collaborative setting to design multiple treatment options-ultimately with the patient as the beneficiary of this extraordinary effort.

We are very excited about our upcoming topics and speakers this year! New for 2023-2024 is the plan to return to 100% in person meetings and 2 Office Managers Forum-Meetings. We find there is no substitute for "in-person" interactions and invite you to bring your team along for some of the evening meetings so you may grow your team engagement. Also new this year is the opportunity to earn membership \$\$ to apply towards the 2024-2025 academic year by hosting a "Treatment Planning Session."

Please join us at our Kick-off Event* on Tuesday, September 12, 2023 at the beautiful San Diego Yacht Club. We look forward to collaborating with you!

***Space is limited. Avoid disappointment and RSVP early. Your RSVP is requested by August 31st, 2023**

Thank you,
May Tong, RDA
